

## 2023 THE 7TH INTERNATIONAL CONFERENCE ON SYSTEM RELIABILITY AND SAFETY

# ICSRS 2023

<http://www.icsrs.org/>

## SPEAKERS

ICSRS is an annual event which aims at a key theme on System Reliability and Safety. For the past years, ICSRS has been technically Co-Sponsored by IEEE Reliability Society (Italy Chapter). It was held in many large capital cities, such as Rome, Paris, Milan, Barcelona, Venice. It has provided a valuable opportunity to share the knowledge, experience and information on system reliability and safety and risk-informed decision-making among scientists and engineers. It will feature world-class plenary speakers, major technical symposiums, industry and academic panels, workshops, tutorials and invited tracks. ICSRS has become an international leading conference in System Reliability and Safety field.

## PUBLICATION

All accepted papers must be written in English and will be published into ICSRS 2023 Conference Proceedings.

ICSRS 2023 is listed in IEEE Official Conf. Calendar:

[https://conferences.ieee.org/conferences\\_events/conferences/conferencedetails/59833](https://conferences.ieee.org/conferences_events/conferences/conferencedetails/59833)

## SUBMISSION

- Full paper (Presentation & Publication)
- Abstract (Presentation only)

Submission system:

<https://www.easychair.org/conferences/?conf=icsrs2023>

Full paper template:

<http://www.icsrs.org/instruct8.5x11x2.doc> (word)

<http://www.icsrs.org/ieee-latex-conference-template.zip> (Latex)

Paper must be written in English, should be within 4-10 pages.

## IMPORTANT DATES

Submission Deadline	Notification date	Registration deadline
August 10, 2023	September 5, 2023	September 20, 2023

## TOPICS

### Track 1: System design and modeling based on reliability

Data-driven reliability model design  
Design Optimization Using R&M Techniques  
Discrete Event Modeling & Simulation

### Track 2: Machine learning and data analysis in reliable engineering

Fault Tree Analysis  
Reliability testing and statistics  
Big-Data Supported Reliability Assessment

### Track 3: Product reliability assessment and management

Reliability theory and application  
Structural reliability  
Risk assessment & management

### Track 4: Engineering reliability maintenance and safety management

Architecture and design-based reliability and performance  
Strategic asset management  
Asset fleet management
